★ ABOUT OUR ★ CHILI

★ Texas Chili uses **steak** trim rather than ground beef, resulting in a bold bite and rich flavor profile.

★ We eliminate the excess grease, creating a superior product for topping **Hot Dogs, Fries, or Burgers.**

★ Slow-simmered with our signature blend of spices for the authentic Texas Chili flavor you and your customers can count on.

★
TEXAS CHILI IS
PERFECT
★ SINCE 1952 ★

BOLD INGREDIENTS. ★ **SUPERIOR QUALITY.** ★ TEXAS PROUD.

REAL CHILI. REAL DIFFERENCE.

At Texas Chili Company, we start with quality and finish with flavor.
BUILT DIFFERENT. TASTES BETTER.

STEAK TRIM – NOT SCRAP MEAT

We use steak trim, not scrap meat. Our chili is made with 50% meat / 50% fat trim, with no bristle or tendon, giving it a richer flavor and better mouthfeel.

COOKED TO 165°F

We cook the trim to 165°F. From a 950 lb cook, we remove roughly 60–80 lbs of grease after cooking.

GREASE REMOVED FOR BETTER PERFORMANCE

Removing grease keeps liquid grease off the serving line and allows the chili to stick better to hot dogs, nachos, and other menu items.

OATS – NOT FLOUR

We use oats as the thickener, not flour. Oats give the chili a thicker texture and allow the product to be classified as gluten-free*, though the plant itself is not certified gluten-free.

CLEAN KITCHEN. QUALITY FIRST.

Our kitchen is thoroughly cleaned before chili, queso, and BBQ production.

* Gluten-Free on the product. Plant is not certified gluten-free.
